EX: 6 - Semantic Movie Recommendation System using Vector Database

AIM:

Implement a scalable semantic search engine that utilizes high-dimensional vector embeddings and a vector database (FAISS) to retrieve contextually relevant media from a large-scale dataset.

CODE:

```
# Install Libraries
!pip install pandas numpy faiss-cpu sentence-transformers

# Imports import pandas as
pd import numpy as np
import faiss
from sentence_transformers import SentenceTransformer from google.colab
import files

# Upload Dataset uploaded =
files.upload()
movies = pd.read_csv('movies.csv')

# Preprocessing + Feature Engineering (COMBINED) movies = movies.dropna()
movies['genres'] = movies['genres'].str.replace('|', ' ') movies['combined'] = movies['title'] + " " +
movies['genres']

# Load Embedding Model + Generate Embeddings model =
SentenceTransformer('all-MiniLM-L6-v2')
embeddings = model.encode(movies['combined'].tolist(), show_progress_bar=True)

# Create FAISS Index (Cosine Similarity) dimension =
embeddings.shape[1] faiss.normalize_L2(embeddings)
```

```
index = faiss.IndexFlatIP(dimension) index.add(embeddings)

# Store Metadata
metadata = movies[['movieId', 'title', 'genres']] print("Total Movies Indexed:",

index.ntotal)

# User Query + Search (COMBINED)
query = input("Enter your movie search: ")

query_embedding = model.encode([query]) faiss.normalize_L2(query_embedding)

k = 5
scores, indices = index.search(query_embedding, k)

# Display Results
print("\n    Top Semantic Recommendations:\n") for i, idx in
enumerate(indices[0]):
    print(f"{i+1}. {metadata.iloc[idx]['title']}
({metadata.iloc[idx]['genres']})")
    print(f"            Similarity Score: {scores[0][i]:.4f}\n")

# Keyword Search Comparison print("\n    Keyword
Search Results:\n")
keyword_results = movies[movies['combined'].str.contains(query, case=False, na=False)]
print(keyword_results['title'].head(5))
```

OUTPUT:

```
Total Movies Indexed: 9742
Enter your movie search: shrek

🎬 Top Semantic Recommendations:

1. Shrek (2001) (Adventure Animation Children Comedy Fantasy Romance)
   Similarity Score: 0.6625

2. Shrek the Third (2007) (Adventure Animation Children Comedy Fantasy)
   Similarity Score: 0.6552

3. Shrek the Halls (2007) (Adventure Animation Comedy Fantasy)
   Similarity Score: 0.6548

4. Shrek 2 (2004) (Adventure Animation Children Comedy Musical Romance)
   Similarity Score: 0.6505

5. Shrek Forever After (a.k.a. Shrek: The Final Chapter) (2010) (Adventure Animation Children Comedy Fantasy IMAX)
   Similarity Score: 0.6104

🔍 Keyword Search Results:

3194                                       Shrek (2001)
5160                                     Shrek 2 (2004)
6486                              Shrek the Third (2007)
6915                              Shrek the Halls (2007)
